```c
#include <stdio.h>

int main(){

    int a = 9, b = 10;

    if(a >= b)
    {
        printf("a is grater than equal to b");
    }
    else
    {
        printf("a is less than equal to  b");
    }

}
```

```
a is less than equal to  b
